

SARC Information

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements and access to prior year reports, see the California Department of Education (CDE) SARC web page at <https://www.cde.ca.gov/ta/ac/sa/>.
- For more information about the LCFF or the LCAP, see the CDE LCFF web page at <https://www.cde.ca.gov/fg/aa/lc/>.
- For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

DataQuest

DataQuest is an online data tool located on the CDE DataQuest web page at <https://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

California School Dashboard

The California School Dashboard (Dashboard) <https://www.caschooldashboard.org/> reflects California's new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served

basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

School Mission Statement School Year 2023-2024

Orange County Workforce Innovation High School's mission is to inspire and prepare all students to be successful, self-directed, and engaged lifelong learners and citizens in their communities. Our personalized approach to offering all students a high quality educational experience integrates three important components: workforce development, college readiness, and social-emotional learning. Our program emphasizes essential skills for success in the 21st century, including literacy, numeracy, collaboration, digital citizenship, writing, and leadership. To carry out our mission, our school fosters Workforce Innovation and Opportunity Act partnerships and actively strives to design a variety of workforce readiness, college preparatory, and extracurricular experiences. The school offers alternative choices through site-based learning, independent study, and distance learning to offer flexibility and individualized options to enable students to acquire the knowledge necessary to achieve success on their own terms.

The school provides a safe, diverse, student-centered environment in which all students are held to high academic and behavioral standards. Students work in collaborative relationships, both within and outside the school, and perform service to the community. In order to accomplish this, the school emphasizes increased parental involvement, more one-on-one teacher and student interaction, social emotional needs of the student, student-driven participation in developing the learning process, technology access, varied learning environments, teacher and parent development programs, and choices in curriculum programs.

The school places a strong emphasis on parental involvement within the learning process. Parents are viewed as an essential link in improving education; therefore, parents are encouraged to take part in their children's education through frequent communication with the teachers, participation in school related functions, and attendance in school sponsored parent development workshops. By providing a vehicle for meaningful parental involvement, the school strives to bridge the gap between school and home. It is the hope of the school that students will observe first-hand their parents and teachers working together to make a difference in their education and future.

School Description and Profile

School Year 2023-2024

Orange County Workforce Innovation High School is a public charter school that offers a personalized educational program for high school students and families who prefer using an Independent Study model to meet academic needs. Typical students are those who want an alternative to the local, public school systems. Most students come to the school because they were unsuccessful in the traditional high school setting, or they needed a more personalized approach to education. Other students need the flexibility of an independent study model to meet family obligations such as work or child care needs. Regardless of the reason, the school offers a uniquely structured academic program, rigorously guided by the California Subject Area Content Standards that provides a challenging, yet highly individualized, education for students.

Ongoing development of a community school model through enhancements of Workforce and Opportunities Act partnerships, CTE pathways, Dual Enrollment options, and A-G approved coursework supports an ongoing cycle of continuous improvement.

A. CONDITIONS OF LEARNING

State Priority: Basic

- The SARC provides the following information relevant to the State priority: Basic (Priority 1):
- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
 - Pupils have access to standards-aligned instructional materials; and
 - School facilities are maintained in good repair

Teacher Assignment

Orange County Workforce Innovation High School recruits and employs qualified credentialed teachers who meet all credential requirements in accordance with State of California guidelines. This chart displays information about teacher credentials at the school.

Note: As an independent charter school, the school's program, resources, and administration are run independently from the sponsoring district, so there is no district data to report for comparison in this section.

One FTE equals one staff member working full time; one FTE could also represent two staff members who each work 50 percent of full time. Additionally, an assignment is defined as a position that an educator is assigned based on setting, subject, and grade level. An authorization is defined as the services that an educator is authorized to provide to students.

Teacher Misassignments & Vacancies

Misassignments refers to the number of positions filled by teachers who lack legal authorization to teach that grade level, subject area, student group, etc. Teacher vacancies reflect the number of positions to which a single designated certificated employee has not been assigned at the beginning of the year for an entire semester or year.

Textbooks & Instructional Materials School Year 2022-2023

Orange County Workforce Innovation High School determined that each student has sufficient and good quality textbooks, instructional materials (including digital textbooks), or science lab equipment pursuant to the settlement of Williams vs. the State of California.

All students, including English Learners, are given their own individual standards-aligned textbooks or instructional materials (including adaptive learning technologies such as Rosetta Stone), or both, in core subjects, health, foreign languages, and visual and performing arts for use in the classroom and to take home.

The table displays information collected in November 2023 about the quality, currency, and availability of the standards-aligned textbooks and other instructional materials used at the school.

B. PUPIL OUTCOMES

State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

- **Statewide assessments** (i.e., California Assessment of Student Performance (i.e., California Assessment of Student Performance and Progress [CAASPP] System includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/ literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities).

The CAASPP System encompasses the following assessments and student participation requirements:

1. **Smarter Balanced Summative Assessments and CAAs for ELA** in grades three through eight and grade eleven.
2. **Smarter Balanced Summative Assessments and CAAs for mathematics** in grades three through eight and grade eleven.
3. **California Science Test (CAST) and CAAs for Science** in grades five, eight, and once in high school (i.e., grade ten, eleven, or twelve).

- **College and Career Ready:** The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

Note: As an independent charter school, the school's program, resources, and administration are run independently from the sponsoring district, so there is no district data to report for comparison in this section.

Career Technical Education (CTE) Programs School Year 2022-2023

The school continues to develop its Career Technical Education (CTE) program. The school recognizes the need to integrate core academic knowledge with technical skills as needed for today's modern workforce, and the school is committed to bringing students greater opportunities in developing these skills through their continued efforts in developing relationships with local businesses and community colleges.

The school offers CTE courses that include Arts, Media, and Entertainment.

This table displays information about participation in the school's Career Technical Education (CTE) programs.

State Priority: Other Pupil Outcomes

The SARC provides the following information relevant to the State priority: Other Pupil Outcomes (Priority 8):

- Pupil outcomes in the subject area of physical education

Physical Fitness

In the spring of each year, all California schools are required by the state to administer a physical fitness test to students in the fifth, seventh, and ninth grades. The physical fitness test is a standardized evaluation that measures each student's ability to perform fitness tasks in five major areas. Students who meet or exceed the standards in all six fitness areas are considered physically fit or in the "Healthy Fitness Zone" (HFZ).

Note: To protect student privacy, an asterisk (*) is used in the table when the cell size within a selected student population is ten or fewer.

C. ENGAGEMENT

State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3):

- Efforts the school district makes to seek parent input in making decisions regarding the school district and at each school site

Opportunities for Parental Involvement
School Year 2023-2024

Orange County Workforce Innovation High School encourages parental involvement throughout the school year. Throughout the school year, OCWIHS hosts quarterly meetings for both our Parent Advisory Committee (PAC) and English Learner Advisory Committee (ELAC). Both of these essential committees provide input and guidance in planning, developing, implementing, and evaluating our school program. Parents and educational partners are encouraged to participate in the development of the Local Control and Accountability Plan, and they are asked to provide input on the progress of the LCAP throughout the year. Other important items that PAC and ELAC advise on are Title I Schoolwide Program, Parent and Family Compact, and Community Schools Framework. Together, these documents outline how the parents, the entire school staff, and the students will share the responsibility for improving student outcomes.

Parents are notified by automated phone calls, text messages, L4L Connect, and web-based communications from teachers and administrators. Parents may contact the school office at (657) 207-2100 if interested in attending. Parent Conferences, Open House, Back to School Night, Title I Annual Meeting, and parent events are also held during the school year to facilitate communication between parents, teachers, students, and community partners. Parents are encouraged to call and meet with their child's teacher as needed to support academic progress towards graduation. In order to decrease obstacles for families to attend and participate in school events, virtual options are offered.

State Priority: Pupil Engagement

The SARC provides the following information relevant to the State priority: Pupil Engagement (Priority 5):

- High school dropout rates;
- High school graduation rates; and
- Chronic Absenteeism.

Dropout & Graduation Rates

In knowing the "at risk of dropping out" status of the majority of students enrolling with Orange County Workforce Innovation High School, we begin interventions from the point of enrollment. Upon enrollment, students participate in a course called Digital Tools for Distance Learning. Upon enrollment, students' complete credit 1 of Digital Tools for Distance Learning and receive a personalized learning plan to meet their goals. In addition, students are supported in determining their college and career interests and plans, The teacher builds upon this throughout the year to support academic planning as well as college and career readiness.

Students also participate in academic assessments, such as NWEA, upon enrollment. The academic assessments assist faculty and the students to understand the strengths and weaknesses of the student. This data allows instructors to make informed decisions when creating students' academic plans and determining appropriate course placements. Unlimited free tutoring availability also serves as an intervention for students, when they struggle with particular concepts. Together, all early

interventions are intended to promote attendance and reduce the likelihood of student dropouts. However, these standard interventions are not always met with student success.

Orange County Workforce Innovation High School has established procedures for tiered reengagement strategies for the following students in accordance with Education Code Section 51747(d):

1. All students who are not generating attendance for more than three (3) school days or 60% of the instructional days in a school week, or 10 percent of required minimum instructional time over four continuous weeks of the Charter School's approved instructional calendar;
2. Students found not participatory pursuant to Education Code Section 51747.5 for more than the greater of three schooldays or 60 percent of the scheduled days of synchronous instruction in a school month as applicable by grade span; or
3. Students who are in violation of the written agreement pursuant to Education Code Section 51747(g).

The procedures for tiered reengagement strategies include, but are not limited to, all of the following in accordance with Education Code Section 51747(d):

1. Verification of current contact information for each enrolled student.
 - a. During each regularly scheduled appointment, supervising teachers and support staff shall verify and update student contact information.
2. Notification to parents or guardians of lack of participation within one school day of the recording of a non-attendance day or lack of participation.
 - a. Parents, guardians, or caregivers will be contacted within one school day of the recording of a non-attendance day or lack of participation.
3. A plan for outreach from the Charter School to determine student needs, including connection with health and social services as necessary.
 - a. A reengagement letter will be sent via email or hard copy to parents, guardians, or caregivers whose students are making unsatisfactory educational progress and for whom other forms of outreach have been unsuccessful.
 - b. A preventative meeting will be scheduled to offer resources, including connection with health and social services as needed.
4. A clear standard for requiring a pupil-parent-educator conference to review a pupil's written agreement and reconsider

the independent study program's impact on the student's achievement and well-being, consistent with the policies adopted pursuant to Education Code Section 51747(g)(4).

- a. An Attendance Intervention Meeting (AIM) will be conducted after a student has missed three (3) assignments during any period of 20 school days and is determined to be making unsatisfactory educational progress. During the AIM meeting, an evaluation will be conducted to determine whether it is in the best interests of the student to remain in independent study, or whether the pupil should return to the regular school program. The meeting shall include a review of the pupil's written master agreement, and reconsideration of the independent study program's impact on the pupil's achievement and well-being, consistent with the policies adopted pursuant Sections 2.4 through 2.6, above. If the student and parent/guardian/caregiver elect to stay enrolled, the team will develop an agreement to help support the student to make satisfactory educational progress, including additional resources and supports. At a minimum, all parties who signed the master agreement will be in attendance including, but not limited to, the student, parent/guardian/caregiver, the supervising teacher, and the student retention support staff.
- b. If the student continues to make unsatisfactory educational progress, then a Student Retention Meeting (SRM) will be scheduled to review the student's progress, remove any additional barriers, and serve as a last attempt to re-engage the student.
- c. If the student continues to make unsatisfactory educational progress, the student will be transitioned out of the program and referred back to their school district of residence. Students will receive written notice explaining their rights under Education Code Section 47605 and Section 2.7 above, which includes minimum notice prior to transition (5 days) and the right to a hearing before the effective date of the transition.

Note: The California Department of Education DataQuest system reports four-year cohort graduation and dropout numbers. The one-year graduation rate is reported through the California School Dashboard and internal student information systems data was used in the chart below, because it was the most recently available source. The school is a Dashboard Alternative School Status (DASS), because the student population served is typically behind in credits.

The tables display the most current data available. N/A is displayed when the school is new, or there is no data available to report, because the state did not report their data when this report was published.

Note: The California Department of Education DataQuest system reports the Four-Year Adjusted Cohort Rate (ACGR) for all regular high schools. However, the ACGR is not a match for our school, because we are an approved Dashboard Alternative School Status (DASS). We serve a student population who are typically behind in credits, and not likely to graduate on time in a regular school setting. As a DASS school, we report the one-year graduation rate, which is calculated internally or from the California School Dashboard. The tables display the most current data available. N/A means that data was not available at the time of publication.

Chronic Absenteeism

The current Chronic Absentee rate is not calculated in a manner for non-classroom based DASS programs to reflect the nature of the students served. According to the CDE, students are determined to be chronically absent if they were eligible to be considered chronically absent at the selected level during the academic year and they were absent for 10% or more of the days they were expected to attend. Orange County Workforce Innovation High School follows all of the required CA State School Dashboard requirements.

School Safety School Year 2023-2024

Our school Safety Plan consists of our Injury and Illness Prevention Program, Emergency Procedures and Section 4 of our Employee handbook. Sponsoring School Districts ask for these safety programs as part of our charter’s renewal process. We review our School Safety Plans annually and update them if necessary.

The safety of students and staff is a primary concern for the school. Both teachers and administrators supervise the students throughout the school day to ensure a safe and positive learning environment. Both staff and student school IDs are expected to be displayed at all times, and visitors to the sites must register in at the front office to receive appropriate identification badges. The school safety plan was last updated and reviewed with school staff in November 2023.

D. OTHER SARC INFORMATION

The information in this section is required to be in the SARC but is not included in the state priorities for LCFF.

Class Size

Due to the nature of independent study, class size distribution data is unavailable for this school.

Counseling & Support Staff
School Year 2022-2023

The school seeks to assist students in their social, emotional, and personal development as well as academics. The school provides special attention to students who experience achievement problems, difficulty coping with personal and family problems, trouble with decision making, or handling peer pressure.

The following is a list of support staff available to students at the school.

School Expenditures Fiscal Year 2021-2022

The table compares a school’s per-pupil funding from unrestricted sources with other schools throughout the state. Supplemental/Restricted expenditures come from money whose use is controlled by law or donor. Money designated for specific purposes by the district or governing board is not considered restricted. Basic/Unrestricted expenditures, except for general guidelines, are not controlled by law or donor. The California Department of Education issued guidance regarding calculating school-level per-pupil expenditures.

For detailed information on school expenditures for all districts in California, see the CDE Current Expense of Education & Per-pupil Spending Web page at <http://www.cde.ca.gov/ds/fd/ec/>.

For information on teacher salaries for all districts in California, see the CDE Certificated Salaries & Benefits Web page at <http://www.cde.ca.gov/ds/fd/cs/>.

Professional Development

Orange County Workforce Innovation High School's staff members are engaged in an ongoing cycle of continuous improvement as part of the Professional Learning Communities model, emphasizing a focus on constantly monitoring and improving student learning, cultivating a culture of collaboration, and analyzing data to meet growth targets. All of these efforts are aimed at improving student learning and performance outcomes.

Professional development sessions are held for two hours monthly throughout the school year and focus on a wide variety of topics aimed at strengthening pedagogy, content knowledge, and instructional versatility to meet the needs of the school's diverse learners. Special emphasis is placed on addressing the unique needs of English language learners, students with IEPs, homeless and foster youth, and low-income students through professional development and learning frameworks on Social-Emotional Learning, Trauma-Informed Care and Restorative Practices, Community Schools, and Multi-Tiered Systems of Support.

Orange County Innovation High School's certificated staff members and administrators participate in ongoing professional development to improve its curriculum and delivery of instruction. Professional development sessions are held monthly throughout the school year in an ongoing cycle of Professional Learning Communities, and focus on a wide variety of topics aimed at strengthening pedagogy and content knowledge to meet the needs of the school's diverse learners. Special emphasis is placed on targeting the unique needs of its English language learners, special education students, and trauma-informed practices.

In addition, school administrators participate in ongoing professional learning with the focus being on effective school leadership practices and instructional leadership. The Leadership Team identifies school-wide focuses for its learning centers each year for professional development and takes the lead in conducting or organizing large and small group staff development opportunities and ongoing instructional coaching to its teachers aimed at the school needs. Topics covered through professional developments are based on the needs of the school, suggestions made by the school staff through department meetings and/or staff surveys, and through the collection and analysis of data indicating school needs and/or needed changes.

Newly hired teachers are partnered with existing teachers for the first year and participate in required on the job training for the purpose of familiarizing them to the program and mission of the school. The school also provides New Teacher Induction training to its preliminary credentialed teachers through its partnership with the Center for Teacher Innovation. Participating teachers are assigned a support provider from their assigned site and participate in all required Induction activities. The school's special education teachers receive annual training on new procedures and processes, as well as effective instructional strategies for improving academic achievement. In addition to ongoing professional development opportunities offered internally and locally, staff also participate in external professional development opportunities such as the California Association of School Counselors Conference, the California Association for Bilingual Education (CABE) Conference, and Cognitive Coaching, as well as other conferences sponsored by local county offices of education.
